Abedalbaset Hamam
Computer engineer and Senior programmer

I'm a professional full stack developer who believes in continuous learning and development, and who puts great value on volunteering and contributing back to the community. I love travelling and meeting new people and I'm open to discussing relocation offers.

CERTIFICATES

Quantum Algorithms for Cybersecurity, Chemistry, and Optimization [MIT university]

Introduction to Quantum Computing [MIT university]

EDUCATION

B.S Computer Systems and Networks Engineering
AlBalqa Applied University

2010 - 2015   *GPA : Very good 3/4*

SKILLS

Python   PHP   HTML   Keras   Math
Statistics   TensorFlow

VOLUNTEER EXPERIENCE

3D modeling
Startup

Create community for exchange books using website and app in my country
Startup

LANGUAGES

English
Full Professional Proficiency

Arabic
Native or Bilingual Proficiency

OTHER PROJECTS I WORKED ON

Developing and programming a medical search engine website and also develop android version

Developing and programming travel website

Research on face detection

Develop logistic system website and application

Use Machine learning to create chatbot in arabic and english languages

Research in random behavior of electron movement in quantum computer using IBM Q

INTERESTS

Everything   board games [like GO]   basketball
Traveling   Food

Quantum computer research :

This image I created using the electron movement in superposition using quantum computer , for full information from this link
